MARTEC - Evaluation - ULIVES

/astaanottaja Fiedler Ralf

Dear Mr. Hintsanen,

Thank you for the participation in the MARTEC pilot call.  
Attached you find the evaluation summery report of the proposal ULIVES.

In some cases evaluation results and expert comments are quite different.  
We tried to use most relevant comments if available to develop a summery report.

We will improve the evaluation process by using consensus reports in the next call in 2009.

Following results were confirmed during the steering committee meeting on 29<sup>th</sup> September.

I would be grateful if you could inform the other participants of your proposal.  
Do not hesitate to contact me in case of questions.

Yours faithfully,  
Ralf Fiedler, MARTEC coordinator
